AUTOLOADING SHOTGUNS

NEW REMINGTON SP-10™ MAGNUM

10 Gauge, 3 1/2 in. Chamber, Autoloader, 5 Shot
MADE IN U.S.A.

The new SP-10 Magnum from Remington is the only gas-operated semi-automatic 10 gauge made today. At the heart of this autoloader is a noncorrosive, stainless steel gas system that is vented for improved functioning. In a design unique to the SP-10, the cylinder in the gas system moves — not the piston — to soften recoil.

The SP-10 has a 3/8" vent rib with middle and front sights and features three new 10 gauge REM™ Choke tubes, designed specifically for steel and lead shotshells.

The American walnut stock and fore-end feature a low-gloss satin finish and cut checkering. This new autoloader also has a brown vented recoil pad, and a padded camo sling of CORDURA® nylon.

Model	Barrel length, in.	Choke	Order No.	
SP-10 Magnum	30"	10 ga REM™ Choke	4808	\$1,650.00
	26"		4812	\$1,650.00

Weight each, about 11 lbs.
One in a box.

REMINGTON MODEL 11-87™ PREMIER™

12 Gauge, 3 in. Chamber, Autoloader, 5 Shot
MADE IN U.S.A.

The new Model 11-87 PREMIER autoloading shotgun features a Pressure-Compensating Gas System that functions with all loads from heavy 3" Magnums to 2 3/4" field loads. This unique gas system is completely self-cleaning such that the compensating spring never has to be removed or cleaned. Recoil sensation is greatly reduced — it feels like a smaller gauge.

The 11-87 retains the sleek lines and outstanding pointability for which Remington shotguns are best known. Plus, the 11-87 features crisp cut checkering, a rich satin finished American walnut stock and fore-end, a clean, finely polished receiver and classic styling not usually found on a true working gun.

Available with 26, 28 or 30 in. barrels, all with REM™ Choke interchangeable Full, Modified and Improved Cylinder choke tubes.

With this combination of function and features, the 11-87 is the finest, most versatile autoloading shotgun ever made.

REMINGTON MODEL 11-87™ SPECIAL PURPOSE CANTILEVER SCOPE MOUNT DEER GUN

Deer Gun, 3" Chamber, Cantilever Scope Mount,
Autoloader, 5 Shot
MADE IN U.S.A.

Its exclusive cantilever scope mount design is adaptable to either long or short eye relief scopes and improves sighting ability and shot placement. Rifled and I.C. choke tubes and wrench are standard. The straight, high-comb style American walnut stock features cut checkering and a low-gloss finish. Barrels and receivers are black matte — a special nonreflective metal finish with superior corrosion resistance.

Camouflage Cordura® nylon sling and cushioned recoil pad are standard.

This gun delivers consistent 3" groups at 50 yds.

AUTOLOADING SHOTGUNS

REMINGTON MODEL 1100™

Model 1100™ Field Grade, Autoloader, 5 Shot
(4 Shot in .410; 3" Shells)
MADE IN U.S.A.

The Model 1100 is available in 20 and 28 gauge and .410 bore, plus a wide range of extra barrels. The 20 gauge comes with flush-fitting REM™ Chokes, the only factory-installed choke tubes of heat-treated, seamless stainless steel, in Full, Modified and Improved Cylinder. Optional Skeet chokes are available.

And like all Remington shotguns and centerfire rifles, every Model 1100 features a receiver machined from solid, ordnance-grade steel. Receivers are polished in our "vibrating" process to ensure smooth performance. Every Model 1100 stock and fore-end is made from select American walnut with a low-gloss satin finish.

Quick-access, positive cross bolt safety, ventilated rib barrels and metal bead front sights, unless otherwise noted.

Model 1100 Youth Guns have shorter stocks and barrel lengths to reduce size and weight for youths and smaller-framed adults, but in no way limit performance.

The 20 gauge Magnum 1100 is designed to deliver maximum power for waterfowl and turkey hunting with the 3 inch chamber barrel; maximum versatility by interchanging 2 3/4 inch chamber LT-20 field barrels for other types of hunting. Recoil pad installed. Other features the same as the LT-20 field gun.

Deer Gun has 21" barrel with Rifle sights — rear sight adjustable for windage and elevation with white indicator at bottom of "V" notch. Improved Cylinder choke for maximum effectiveness with rifled slug loads and buckshot loads. Recoil pad. Other features same as regular Field Gun.

28 ga. about 6 1/2 pounds,
.410 about 7 pounds.
One in a box.

REMINGTON MODEL 11-87™ SPECIAL PURPOSE™ MAGNUM

12 Gauge, 3 in. Chamber, Autoloader, 5 Shot
MADE IN U.S.A.

Deer Gun, 12 Gauge, 3" Chamber, Autoloader, 5 Shot
MADE IN U.S.A.

The Model 11-87 "Special Purpose" Magnum is available with 26" and 30" vent rib barrels with REM™ Choke, ideal for waterfowl and turkey hunters — or with a 21" REM™ Choke deer barrel with Rifled and I.C. choke tubes.

Barrels and receivers are black matte — a special nonreflective metal finish with superior corrosion resistance. American walnut stocks and fore-ends have a dark, low luster finish, an cut checkering.

Camouflage CORDURA® nylon sling straps and cushioned recoil pads are standard.

REMINGTON MODEL 1100 SPECIAL FIELD™

Model 1100™ "Special Field", Autoloader, 4 Shot
MADE IN U.S.A.

The Model 1100 "Special Field" shotgun combines the traditional, straight-stock styling of years past with features never before available on a Remington Autoloader. Its 21" vent rib barrel, slimmed and shortened fore-end, straight, cut checkered stock offers upland hunters a quick, fast pointing shotgun. 2 3/4" chambered REM™ Choke extra barrels are interchangeable with standard Model 1100 barrels. Overall length 41"; length of pull 14", drop at comb 1 1/2", drop at heel 2 1/2"; 4 shot capacity.

PUMP SHOTGUNS

REMINGTON MODEL 870™ "EXPRESS"

12 Gauge, 3" Chamber, Pump Action, 5 Shot
MADE IN U.S.A.

The popularly priced 870 "EXPRESS" features a 3 in. chambered 12 ga. vent rib barrel, 28 in. with REM™ Choke fitted with a Modified choke tube. The receiver is machined from a solid block of ordnance steel. Its hardwood stock and fore-end are checkered, walnut-stained with satin finish. A solid recoil pad is standard. The "EXPRESS" features exceptionally fast and smooth chambering and extraction through use of double action bars. Barrel extension locks in the breech bolt to assure constant headspace, cross bolt safety switch. Capacity five 2 3/4" or 3" shells. Length of pull 14 in., drop at heel 2 1/2 in., drop at comb 1 5/8 in.

REMINGTON MODEL 870™ SMALL GAUGE

Pump Action, 5 Shot
MADE IN U.S.A.

America's favorite pump shotgun. Since 1950 more than 4 million 870's have been sold. Exceptionally fast and smooth chambering and extraction through use of double action bars. Quick, no-tools-needed barrel interchangeability. 20 gauge 26 and 28 in. barrels now come with REM™ Choke tubes. Receiver made from ordnance-quality steel. Barrel extension locks in the breech block to assure constant head space. Cross bolt safety switch. Vibra-honed metal finish, chrome-place bolt. American walnut stock and fore-end have deep, custom checkering and satin finish. Fluted comb. Wood protected by a durable low-gloss satin finish. Metal bead front sight. Length of pull 14 in., drop at heel 2 1/2 in., drop at comb 1 5/8 in. 3-shot plug furnished. 28 gauge and .410 guns have butt plates, not recoil pads.

REMINGTON HIGH POWER MODEL 700™ BDL "CUSTOM" DELUXE

Centerfire Bolt Action
MADE IN U.S.A.

The BDL version of the Model 700 is available in 15 different calibers. Extra strong action with 3 rings of steel (bolt head, barrel and receiver) surrounding the cartridge head when gun is fired. Precision rifled Remington special steel barrel for outstanding accuracy. Anti-bind 'gliding' jeweled bolt, stainless steel magazine follower. Hinged floor plate. Bolt handle positioned farther forward of trigger to protect knuckles from recoil. Positive thumb safety switch. Flat faced gold bead front sight, hooded ramp. Rear sight adjustable for windage; sliding ramp for more precise elevation adjustment. Receiver drilled and tapped for scope mount. American walnut Monte Carlo stock with cheek piece, distinctive, 20-lines-per-inch skip-line cut checkering on grip and all around fore-end. Deepened pistol grip slimmed for more holding comfort. RK-W gloss wood finish, white spacers. Quick-release swivel studs, black fore-end tip. Left hand versions have left hand safety switch, bolt and ejection. 13 3/8 in. length of pull, 2 3/8 in. drop at heel, 1 5/8 in. drop at comb (from open sight line).

Recoil pad included on Magnum models.

BIG GAME RIFLES

REMINGTON HIGH POWER MODEL 700™ "MOUNTAIN RIFLE"

Centerfire Bolt Action
MADE IN U.S.A.

All of the strength and accuracy for which the Model 700 is renowned, in a slimmed down, lighter weight, great handling version. Ideal for challenging hunting that requires a highly portable rifle with the power and accuracy for the toughest shots. The trim, stylish tapered 22 in. barrel reduces weight to an easily carried 6 3/4 lbs. yet shoots with the accuracy of the traditional Model 700. The "Mountain Rifle" is chambered for six proven big game and high performance calibers — long action: 270 Win., 280 Rem. and 30-06 Spfd. — short action: 243 Win., 7mm-08 Rem. and 308 Win. The classic-styled American walnut stock is cut checkered, satin finished and designed with a lowered pistol grip and a contoured cheek-piece for excellent handling and aiming. A thin, black rubber butt pad and sling swivel studs are standard. Receiver is drilled and tapped for scope mounts. Length of pull 13 3/8 in., drop at comb 9/16 in., drop at heel 1 in.

REMINGTON HIGH POWER MODEL 700™ ADL

Centerfire Bolt Action
MADE IN U.S.A.

The Model 700 ADL is priced equal to, or below, many competitive rifles with fewer features. It has a slimmed-down pistol grip for improved handling. A sculptured, reverse-cut fore-end. Checkering is positive-cut into rich American walnut. And a quality satin wood finish. Sling swivel studs are factory installed, at no extra charge. Available in seven potent calibers, the 700 has a receiver that's machined from a single billet of ordnance steel. The bolt face, barrel and receiver surround the cartridge head with three rings of steel for unparalleled strength. It's hand-assembled, rigidly inspected and individually test fired. The receiver is drilled and tapped for scope mount. Length of pull 13 3/8 in., drop at comb 1 5/8 in. (from open sight line), drop at heel 2 3/8 in.

BIG GAME RIFLES

Features Common to the Models 7400™ and 7600™

The Models 7400 and 7600 each feature an American walnut stock, stylish curved pistol grip, and styled checkering, with satin finish. Removable 4-shot clip magazine. Receiver drilled and tapped for scope mounts. Detachable ramp front sights; detachable rear sights are adjustable for elevation and windage. The bolt has massive locking lugs, similar to those of bolt-action rifles. And every part is made by American craftsmen right here in the United States of America.

TARGET SHOTGUNS

REMINGTON MODEL 11-87™ PREMIER™ TRAP AND PREMIER™ SKEET

Autoloader, 12 ga., 5 Shot
MADE IN U.S.A.

Designed for the balance, pointability and soft recoil target shooters need. Both Model 11-87 Premier target shotguns feature a stainless steel magazine tube that resists rust and corrosion. The extractor, firing-pin spring, heat-treated piston and piston seal are all engineered to give reliable, maintenance-free operation—even after thousands of rounds.

The stocks and fore-ends are carved from select American walnut, and feature tournament-grade cut checkering with a handsome satin finish. The 11-87 Premier Trap is available with your choice of Classic or Monte Carlo stock styles.

The Model 11-87 Premier Trap comes with 2 3/4" chamber, 30" vent rib barrel with special Rem™ Choke Tubes. The Remington Trap choke system consists of an overbored barrel, and choke tubes designed exclusively for it. Trap tubes will not perform satisfactorily in standard bore field barrels. The Model 11-87 Premier Skeet is available in 12 gauge only, with 2 3/4" chamber and 26" vent rib barrel with Rem Chokes.

Model	Chambers length, in.	Vent Rib Barrel Length & Choke	Overall Length	Avg. Wt. (lbs.)	Order No.

REMINGTON MODEL 870™ TC TRAP GRADE

Pump Action, 12 ga., 5 Shot
MADE IN U.S.A.

This target shotgun gives shooters the same dependable pump action that has made the Model 870 the choice of more than four million shotgunners worldwide.

Like the Model 11-87 Premier Trap, the Model 870 TC Trap gives you a choice of stocks — either standard trap or Monte Carlo — featuring tournament-grade cut checkering and a satin finish.

The TC Trap is available with a 2 3/4" chamber, 30" vent rib barrel with Rem™ Choke. The Remington Trap choke system consists of an overbored barrel, and choke tubes designed exclusively for it. Tubes will not perform satisfactorily in standard bore field barrels.

Model	Chambers length, in.	Vent Rib Barrel Length & Choke	Overall Length	Avg. Wt. (lbs.)	Order No.

REMINGTON MODEL 1100™ TOURNAMENT SKEET

Autoloader, 5 Shot
MADE IN U.S.A.

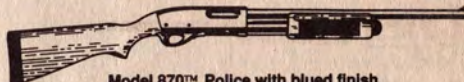

For 1989, all Model 1100 Tournament Skeet shotguns feature select American walnut stocks and fore-ends with tournament-grade cut checkering and a rich satin finish.

The Model 1100 Tournament Skeet is available with a standard chamber and a vent rib barrel. The 20-gauge Model 1100 features a 26" barrel with Rem™ Choke; the 28 gauge and .410 bore feature a 25" barrel with fixed Skeet choke.

Gauge	Model	Vent Rib Barrel Chambers	Length & Choke	Overall Length	Avg. Wt. (lbs.)	Order No.

OVER 50 YEARS

THE BEST FROM BRAZIL

- * SUPERB WORKMANSHIP
- * EXCELLENT BALANCE
- * SHOTGUN SPECIALISTS

Take advantage of a unique situation. Shotgun manufacturing is a very high labour cost intensive industry, but Brazil, which is now booming with modern technology, still has low wages compared with Europe or North America. The price of Boito Shotguns is proof. Check the quality of design and workmanship. Both are as remarkable as the low price.

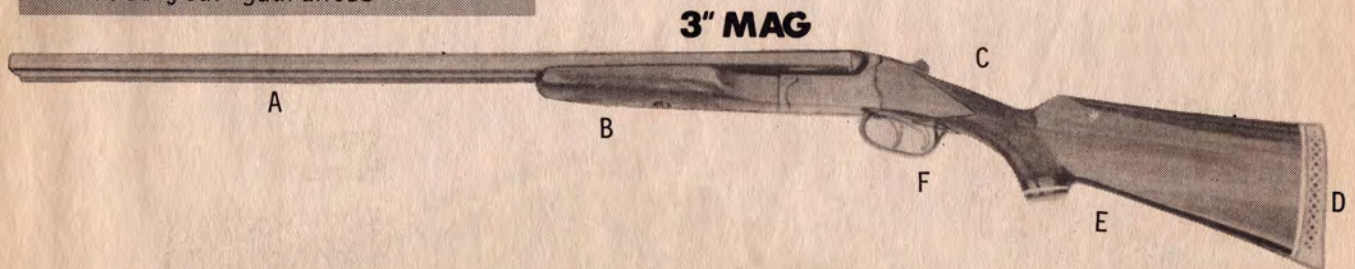

Because the owner of the Boito Factory is a trap shooting champion he continually improves quality and design as a result of his own competitive experience.

Boito has been making shotguns for over 50 years. They have been sold to USA, Europe, Australia and many other countries in ever increasing numbers.

Quick Take Down .22 Semi Automatic

The 22ATD is a modern interpretation of one of John Browning's most famous designs. Compact styling & light weight. Milled steel receiver and barrel, adjustable sights, cut checkered butt stock and forend are just a few of its many features. High quality, workmanship, and performance, without a high price. 11 round capacity. Blue finish

LIFETIME WARRANTY

Lifetime of first
registered owner.

BELL black powder rifles are made in Northern Spain in one of the finest and oldest arms centres of the world. They come from specialized factories that make muzzleloading rifles and pistols for black powder buffs and arms collectors in Europe and North America.

Our factories have many years experience in making authentic black powder weapons. We have been selling them in Canada for many years. Dealers across Canada are very pleased with the SUPERIOR QUALITY of our rifles. Many customers told us that they are well satisfied with the excellent quality of our rifles and they are of much better quality of what they had before.

BELL muzzleloading rifles are made to give a lifetime of trouble free shooting and the amount of service required is virtually NIL.

Kentucky Rifle

Single trigger. Selected hardwood stock.

B11.50PK .50 PERC \$220.00

An authentic Kentucky muzzleloading rifle of high quality and craftsmanship that should be included in every gun collection.

This beautiful long gun, the Kentucky Rifle, took its name from the shooting feats of the fur trappers of Kentucky and Tennessee.

During the Revolutionary War in 1775 Daniel Morgan was authorized by Congress of the United States to form ten companies of riflemen among the first regular troops of the new-born regular Army of the United States of America. One of these companies was recruited from the frontier men, armed with their KENTUCKY RIFLES. It is told that although their function was sharp-shooting, they carried a hunting knife and a tomahawk for hand to hand combat. Their favorite recreation was target shooting and all the men in the company had to place ten balls in sequence in a 6"x6" target at 90 yards in order to qualify.

Homestead Rifle

Double set triggers. Select hardwood, walnut finish.

Overall length: 44"

Barrel: 28" Octagonal, 15/16" across flats, 1 tenon, hooked breech, 1 turn every 66", 8 grooves.

Sights: Fully adjustable rear, brass blade front.

Weight: 7 lb.

B12.50PK .50 PERC \$245.00

The Homestead Rifle is one of the variations of the graceful Pennsylvania rifles that were in use on the Eastern Seaboard. The shorter barrel and solid stock made it a preferred rifle for horseback. It was built for strong charges and heavy ammunition for trappers and mountain men who had to rely on a good rifle for grisly bears and buffalos. Made to fire 2F black powder loads of 60 to 80 grains for round balls with patch.

B13.50P .50 PERC \$340.00

B13.50F .50 FLINT \$369.95

The Shenandoah Rifle is an exact reproduction of the well known 18th century hunting rifle. It is today as useful and accurate as it was then. It has that authentic look that will make it a prized possession on a mantle piece. Many Americans and Canadians own one of these rifles. Like a valuable painting, it will increase in value as time goes on.

B14.54P .54 PERC \$285.00

The brothers Sam and Jake Hawken settled in Saint Louis, Missouri, in 1815 and rapidly gained fame as the best gunsmiths of the time. Without doubt they made the best hunting rifle in America, known today by riflemen and collectors as the HAWKEN RIFLE. It has very definitive characteristics: Wide stock with a strong throat, trigger guard with supports, stock reaching halfway up the barrel, with double triggers and large caliber. The heavy barrel is rifled with long spirals which permits considerable variation in the powder charges without lessening the accuracy. With these rifles the authentic Rocky Mountain professional buffalo hunters shot from enormous distances without startling the herd. The hunter Henri Chatillon demonstrated that he could kill a buffalo with one shot in the lungs at 330 yards. The level of safety was excellent. It could be loaded rapidly without excessive care.

BELL Featherweight Hunter

Double set trigger. Select hardwood stock, walnut finish.

Over all length: 39"

Barrel: 24" Octagonal, 7/8" across flats, 1 tenon, hooked breech.

Sights: Rear open styl adj., beaded blade front.

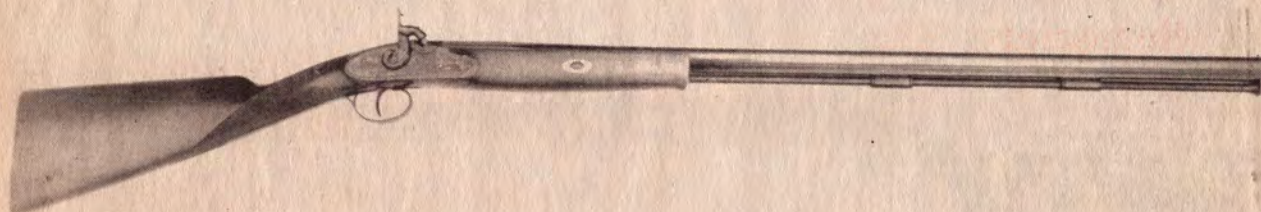

Weight: 6 lb.

Weight: 9 lb.

R2105 .45 PERC \$620.00

R2100 .50 PERC \$620.00

R2090 .50 FLINT \$650.00

We proudly present the true classic North American Pennsylvania rifle: a hunting rifle adapted to the wide-open spaces with its abundant wild life, where a man needed long range accuracy in order to fill the family cooking pot. The caliber was small to economize on powder and lead, with a long barrel to make the most of that vital powder so essential to survival. It has a double set trigger to augment the precision, has brass patch box and inlays in the stock. This rifle was used by youngsters from the age of 12 who helped to provide food for the family and to fight off the constant Indian attacks. These young men became the riflemen who forged the famous legends of the pioneers and colonists, who built that great nation, America. This exquisite, hand-finished weapon is made of the best materials and is one of our finest products. Its stock is a single piece of solid select walnut with brass fittings. A precision lock, set trigger, long specially rifled barrel with adjustable sights, 45 and 50 caliber, wooden ramrod with brass tip.

Recommended load: 50-60 grains 3F black powder.
Round ball with patch.

BELL Hunter Rifle

Double set trigger. Select walnut stock. Made by Ardesa

Overall: 44"

Barrel: 29" Octagonal, 15/16" across flats, one tenon wedge, hooked breech.

Sights: Fully screw adjustable for windage and elevation Beaded blade front, partridge style open rear, both dovetailed.

Weight: 9 lb.

R2180 .50 PERC \$575.00

R2184 .54 PERC \$575.00

An upgraded HAWKEN RIFLE with a fine grained walnut stock with cheek piece. Brass parts have a no-glare "black-chrome" finish. Has deep grooved 1 turn in 66" for hunting accuracy. A muzzleloader equipped with the very best.

**PUMP SHOTGUNS****Quality:**

Our own gunsmith tested this shotgun extensively and reports as follows:
 I testfired 2-3/4" #7 shot factory loads at 30 yards in a 30" circle 85% shot in circle.
 Extraction: Excellent
 Ejection: Excellent
 A well manufactured firearm.
 A rapid firing shotgun.
 Excellent price.

Easily dismantles for cleaning.
 Recoil very relaxed. No alarming shock.
 I highly recommend this gun for left hand shooters, because of the bottom ejection. No danger of shells hitting face.

An independant gunsmith tested the gun and says:
 "Exceptionally well made. I will order some myself."

Remington. Clothing

Because the better you feel, the better you perform.

THERMAX® UNDERWEAR

Underwear is the first layer in the Remington layering system. Made of *Thermax*®, a soft, unique fabric of hollow-core, fine-denier fibers that wicks moisture away from the skin for warmth and comfort, our Underwear retains its shape after repeated washing and resists odor buildup. Hunters, fishermen and hikers have reported that the key to keeping comfortable is having a layer next to the skin that can control moisture.

THERMAX® STANDARD-WEIGHT UNDERWEAR

- Hollow Thermax® fibers.
- Smooth, interlock knit provides comfort and fit.
- Crewneck Top has long tail to prevent shirt from riding up.
- Bottom has elasticized waist and fly front.

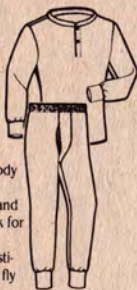

• Sizes: S, M, L, XL, XXL.

W700 Navy, Top \$35.95
W703 Navy, Bottom \$35.95

THERMAX® HEAVYWEIGHT UNDERWEAR

- Hollow Thermax® fibers.
- Double-layer construction for extra insulation.
- Top has long body to prevent shirt from riding up and two-button neck for venting.
- Bottom has elasticized waist and fly front.

• Sizes: S, M, L, XL, XXL.

W730 Loden, Top \$42.95
W733 Loden, Bottom \$42.95

SHIRTS

COOLMAX®/COTTON POLO SHIRTS

Our circular-knit, soft, plaited Coolmax®/cotton fabric provides maximum wicking and comfort in warm weather.

- 3-button placket front for venting.
- Felled shoulder with single-needle stitching for durability.
- Long or short sleeves.
- Plaited fabric allows Coolmax® to be against skin for moisture wicking, and cotton on the outside as reservoir fiber.
- Drop tail.
- Embroidered Remington logo.
- Accent colored collar and trim.
- Available in White, British Green.

• Sizes: S, M, L, XL, XXL.

W552 White, British Green Long sleeves \$53.95
W555 White, British Green Short sleeves \$42.95

SAFARI SHIRTS

These ultra-lightweight Shirts are made of fine-count, imported, 100% combed cotton.

- Generous button-down pockets and button epaulets on shoulders and sleeves.

- Long or short sleeves, for year-round use.

- Available in Khaki and Dark Olive.

• Sizes: S, M, L, XL, XXL.

W532 Khaki, Dark Olive Short sleeves \$53.95

WORSTERLON® SHIRTS

Made of unique Dacron® polyester fiber, Remington's Worsterlon® Shirts are specially finished to replicate the hand and warmth of 100% worsted wool, with the softness of cotton, for a versatile midlayer garment. The Shirts are quick-drying, easy to wash, and will not shrink after repeated washing.

WORSTERLON® SHIRT

- Dacron® polyester.
- Corduroy-lined collar and large breast pockets with button flaps to hold shooting glasses, licenses, and other accessories. (Note: Plaid Worsterlon® Shirt has only one patch pocket.)
- Available in Blaze, Green.
- Sizes: S, M, L, XL, XXL.

W511 Blaze, Green \$57.95

HEAVYWEIGHT WORSTERLON® SHIRT

- Dacron® polyester.
- Heavy 18-oz. weight provides extra warmth and durability.
- Corduroy-lined collar and large breast pockets with button flaps. (Note: Plaid Worsterlon® Shirt has only one patch pocket.)

• Sizes: S, M, L, XL, XXL.

W520 Red/Black Plaid \$81.50

SWEATERS

Sweaters are an important option when selecting midwear garments. Remington's sweaters are made of High Trek® yarn, a unique blend of 25% wool, 20% Hollofil®, and 55% Hi-Bulk Orlon®, for attractive, warmer-than-wool sweaters that retain their shape and won't shrink after repeated washing. Suitable for wear as an outer layer or under Remington Parkas and Jackets.

SHOOTER'S SWEATER

- High Trek® yarn.
- Button fatigue collar adds style and allows venting when necessary.
- Ultrasuede® patch maintains garment's washability.
- Available in Natural.
- Sizes: S, M, L, XL, XXL.

W658 Natural \$85.95

POLARPLUS®/HIGH TREK® PULLOVER

Remington's unique Polarplus®/High Trek® Pullover combines the comfort of High Trek® knit and the stability of Polarplus® body.

- Form-fitting sleeves knit of High Trek® yarn, which is warmer than wool and retains its shape. Polarplus® body is as warm as wool at half the weight, yet stable enough to have a pouch.
- Front pouch pocket.
- Will not shrink after repeated washing.
- Button fatigue knit collar for venting.
- Suitable for wear as an outer layer or under Remington Parkas and Jackets.
- Available in Loden.
- Sizes: S, M, L, XL, XXL.

W670 Loden \$92.50

POLARPLUS

Napped and double-sheared to avoid pilling, the Polarplus® Jacket and Pant provide the warmth of wool at half the weight. Ideal as midwear or outerwear garments.

POLARPLUS® JACKET

- Full-length zipper, zippered patch pockets, and rib-knit waist and cuffs.
- Dolman sleeves for comfort, flexibility, and excellent fit.
- Quick-drying.

• Sizes: S, M, L, XL, XXL.

W261 Loden \$92.50

POLARPLUS® PANT

- Elastic waist with snap front zipper fly.
- Front slash pockets and zippered hip pocket.
- Side-seam zippers allow easy dressing.
- Wear alone or as insulating layer under Remington Overpant.

• Sizes: S, M, L, XL, XXL.

W360 Loden \$75.00

HIGH TREK

A yarn blended of orlon, wool and Hollofil fibers. "Warm as wool", doesn't itch and offers easy care.

Remington.

Ask yourself, whether you deserve the best...

BIG GAME

Each of our Big Game Parkas is designed to be tough, quiet, lightweight, warm and waterproof. The outer shell is made of a supple, lightweight, yet tough Cordura® fabric treated with Zepe!® to resist stains and rain. The shell also has a waterproof, breathable Gore-Tex™ z-liner insert. Thermolite® and Thermoloft® insulation provide lightweight warmth. Thermolite® is a highly engineered thinfill that has properties very close to down when dry and twice as warm when wet. Thermoloft® is a mid-loft insulation providing 30% greater warmth than thin insulations of equal weight. Each outer component qualifies for the Gore-Tex® "Specially Designed for Extreme Wet Weather" tag.

BIG GAME PARKA

- Cordura® outer shell.
- Waterproof Gore-Tex™ z-liner insert allows quiet movement.
- Treated with Zepe!®.
- Thermolite® insulation throughout.
- Detachable hood, fleece-lined collar, adjustable button cuffs, reinforced elbows, and unique climbing cut front.
- Fleece-lined, hand-rest pockets keep hands warm when carrying a gun.
- Available in Blaze, Tan.

• Sizes: S, M, L, XL, XXL

W170 Blaze, Tan \$321.95

BIG GAME 4-WAY PARKA

- Cordura® outer shell.
- Waterproof Gore-Tex™ z-liner insert allows quiet movement.
- Treated with Zepe!®.
- Thermolite® insulation in hood.
- Detachable hood, fleece-lined collar, unique climbing cut front, inside security pocket, and adjustable button cuffs.
- Fleece-lined hand-rest pockets keep hands warm when carrying a gun.
- Removable, reversible liner with Thermoloft® insulation; one side is durable Cordura®, the other is soft Supplex®; elastic cuffs, and set-in slash pockets on both sides; both sides treated with Zepe!®.

• Sizes: S, M, L, XL, XXL

Gore-Tex

The original microporous waterproof, breathable membrane, which can be laminated to many different fabrics. Provides water- and windproofing while retaining BREATHABILITY.

COOLMAX

Super-wicking nylon fiber. Coolmax fabrics pull water away from the body, letting the moisture evaporate. Low moisture retention, shrink resistant, will not retain odors.

ZEPEL

A water, stain, and oil-repellent treatment applied to fabrics. Allows garments to maintain breathability.

Remington® DU PONT

...This is the best.

SILENT STALKER

Made of Polarplus®, a fine-denier 100% Dacron® polyester, the Silent Stalker Jacket and Pant are very soft, quiet outer garments that won't pill. The Silent Stalker Jacket (Gore-Tex®) and Pant (Gore-Tex®) have a Polartek™ shell and are laminated to waterproof, windproof Gore-Tex® fabric. Both outfits are ideal for turkey and deer hunting.

* SILENT STALKER JACKET (GORE-TEX®)

- Patented Thor-Lo® system provides selected cushioning and loft in the heel and toe, assuring maximum comfort and protection against concussion, abrasion, and blisters.
- Terry knit in the instep and over the toe area allows rapid evaporation of moisture and provides bulk for warmth.
- Medium-density terry knit provides support and protection in the arch.
- Designed for warmth and comfort in extremely cold weather.
- Wearing with Remington Liner Sock keeps feet even drier and more comfortable.
- Available in Forest Green/Grey

• Sizes: M, L.

W881 Forest Green/Grey
\$19.50

COTTON IS NOT THE BEST SOCK FIBER....

The answer to moisture transport is **COOLMAX and THERMAX**. Coolmax transports moisture away from the skin and to the surface of the sock where it can evaporate. The hollow fiber of Thermax holds in air providing thermal insulation.

Remington.

REMINGTON DUPLEX™ SHOTSHELLS IN LEAD AND STEEL. Only Remington Duplex™ shotshells contain two kinds of shot for both density and range.

- Base load of smaller shot to deliver dense, uniform patterns at normal ranges.
- Larger shot provides energy at extended ranges.

REMINGTON NITRO MAGNUM Extended Range Buffered Magnum Shells 12 and 20 Ga.

REMINGTON SLUGGER® RIFLED SLUGS High-velocity magnum and short magnum Slugger loads — two of the fastest rifled slugs ever made.

- Speeds up to 1760 fps
- Flatter trajectory
- Less wind deflection

REMINGTON SHOTSHELL PRIMERS

Brass primer cup. Brass-plated battery cup, covered flash hole. Used in Remington and Peters 12, 20, and 28 gauge target loads, selected 12 gauge field loads and all 28 gauge field loads.

New 410 PREMIER™ shotshell primer brings 209 performance and reliability to all 410 loads.

Our KLEANBORE® shotshell primers have a nonmercuric, noncorrosive mixture to help keep your gun clean, dependable, corrosion-free. Although we make primers by the millions, our manufacturing tolerances assure precise performance from each and every one.

IMPORT SHOTSHELLS

Made in Mexico

*** POWDER FROM USA
 *** PRIMERS FROM USA
 *** REMINGTON SUPERVISORS
 *** FACTORY JOINTLY OWNED WITH REMINGTON

- 8 segment Venko crimp that avoids the loss of shot and extends reloading life.
- Extra round, hard lead shot for getting... true flight, additional knockdown power, effective target breaking and denser patterns.

- One piece wad, which cushions -- and carefully protects the shot eliminating barrel leading and shot deformation.

- Our wads also act as a seal which keeps gas from pushing past the shot column, you get every bit of energy behind the payload.

- Reloadable plastic tubes made of top quality polyethylene for easy chambering.

- Selected powder from the United States in order to give you the very best recoil characteristics, proper velocity and safe pressure limits.

- Our primer is manufactured in the United States to provides you...high sensitivity, instantaneous ignition, reliable performance even in extreme temperatures, and keeps barrels cleaner.

World Class .22 Ammo

EXPERTS SAY "AS GOOD AS THE
FINEST IN THE WORLD."

Here is what a custom gunsmith in British Columbia says who tested our .22 Ammo.:

"Right along quality of Remington Target .22 ammo retailing for \$3.35."

"Just about the same as RWS the Top German Target Ammo."

-as far as accuracy is concerned
-as well as consistency in velocity
-and also in cleanliness."

When we re-ordered recently we told the export manager that we did not have a single complaint from our customers. He answered:

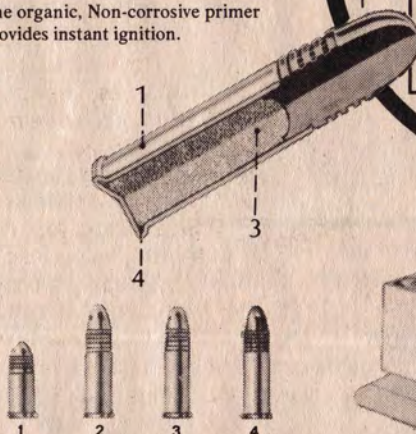

You should have no complaints. He said he knows their ammunition is the best quality. They are testing it every day, every batch they make.

We are happy to hear their positive comments. It shows that they are very quality minded and committed to maintain the high standard of quality.

In the past Aguila was mostly sold by price only. In the future it should be sold also for the HIGH QUALITY COMPARABLE TO REMINGTON AND RWS.

22-CALIBER RIMFIRE CARTRIDGES

- 1.- Cases of hardened brass, made to function perfectly in any kind of 22 caliber firearm.
- 2.- The technically designed bullet, ensures highest accuracy. Keeps clean Barrel thanks to its lubricant.
- 3.- Smokeless powder develops maximum power at low pressure.
- 4.- The organic, Non-corrosive primer provides instant ignition.

A smiling moose hunter says... I could not believe how the moose came headed straight for where I poured the MARES URINE and where I was sitting behind the bushes. This was my first moose hunt and my second day out.

Dear Mr. Labelle:

Last fall I sent for your book Moose Hunter's Guide along with horse urine and nature odor. I have been hunting since 1962 in the same place. I have shot my share of moose. Never a real big bull. Last fall after reading your book and using your urine and nature odor I got a real big bull. He had been around for a few years. I had seen his tracks. He would come to the call but would always back off before you could get close enough. Last fall using the urine and calling, he would come right out. I think your book is the best book on moose hunting I have ever read. Your hunting friend, Ross Hagers, Langton, Ont. NOE 160.

They Called...

The Moose Came

Dear Mr. Labelle:
Find enclosed a picture of myself and hunting partner with a bull moose we shot last fall using your mares urine. We were sitting in a bush with lots of poplar trees having a rest. I looked up the hill and could see a bull moose coming down through the trees, about a 100 yards away. We got ready to start calling him, when all of a sudden he put his nose to the ground and started heading towards us. We then realized he was walking in our footsteps and following the mare's urine smell. It was an incredible experience having the bull walk right up to us grunting and not even paying any attention to us sitting there. I was so excited I could not stay quiet. I kept on saying he is going to run us over. Dave kept on saying: Be quiet. When he was less than 15 feet away, we both drew our bows, but I did not have a clear enough shot, so Dave shot. The bull swung away from us. The arrow caught him in the lungs. We knew then we had him. Even with the arrow in him, he still wanted to come closer. He finally turned still grunting and walked away to die. We called in quite a few moose but never close enough for bow & arrow or it got too dark. I have shot quite a few moose with a rifle. But never ever had an experience like this one. I have read your book several times and still get something out of it. I listen to your tape all the time and practice. Calgary, Alberta

Hi Eugene

I purchased your mare's urine and nature odor and practiced last summer with your tape on moose calling. On the second day of the hunt I was watching over an area where there was lots of tracks and droppings and started calling about 7AM and by eight I turned around behind me to see a large bull standing about sixty yards. I did not even hear him. I have now the experience of having two bull moose coming to my call. If you can remember I told you that the fellows I hunt with were non-believers in new hunting methods like moose calling especially. When a so called inexperienced moose hunter was getting results like this and advising them, they asked me for your address to purchase both your tape and urine etc. Kingston, Ontario

Dear Eugene,
I used the mare's urine and nature odor last year and called in 2 bulls using the calls from your cassette. Your instructions and advice I received from your Moose Hunter's Guide were terrific and I would highly recommend your methods to all serious hunters. Thunder Bay, Ontario

MOOSE HUNTERS

Don't be disappointed, order early!

Be prepared for the opening of the moose hunting season with our excellent products.

Will attract male and female moose from miles away.

Try it and multiply your chances for success. You will be amazed about the difference it makes. Instructions included. All good moose hunters know that the urine from a mare in heat has no equal in its ability to attract moose. This innovative product has been used by Eugene Labelle, pro guide, since many years.

Moose Hunters' Guide

by Eugene Labelle (Pro Guide)

This book is the equivalent of having the services of a professional guide.

1. Habits of the moose
2. How to identify their tracks
3. Strategy to use
4. Tricks to use
5. Equipment needed
6. Where, when and how to "call"
7. How to butcher the meat
8. How to make a moose horn
9. Prospecting
10. How to portage moose meat

HUI02F French 10.99

Moose Calls

Imitated by Eugene Labelle on cassette.

This cassette will permit you to practise your "call" at any time. You will hear the female calling the male; the response of the male; the call of a solitary male seeking company; the female calling her call; the response of the call; etc. It is important to know many different calls to suit the different periods in the moose hunting season. As a bonus on this cassette, you will hear how to call wolves as well as the response from the wolves themselves.

HUI04 150ml \$8.25

Nature Odor

A TRUE ELIMINATOR OF SUSPICION

Works with ANTELOPE, BEAR, CARIBOU, COUGAR, COYOTE, DEER, ELK, FOX, MOOSE, WOLF...and other animals.

**FOR RIFLE HUNTERS
BOW HUNTERS
NATURE PHOTOGRAPHERS**

A natural odor screen which will mask all suspicious scents. When you are hunting and you don't want the animals to detect you or become suspicious. Especially when you must get very close to that animal.

When you prepare for the hunting season and you wish to cover your territory without arousing the suspicion of the game. When you are tracking animals with your camera.

HUI05 2oz \$4.99

For years, top moose hunters have successfully called in bull moose using their natural voices through a birch bark megaphone. The megaphone allowed a hunter to produce the nasal tone of a cow moose. Utilizing this same concept, Lohman has produced the most authentic, simplest-to-use reed moose call ever built. In recreating the tonal quality of a cow moose bugle, a double reed sound system was needed. To ensure precise placement of this system everytime, a unique stainless steel tone-chamber was developed. We then incorporate an innertube resonator which when combined with the dual reed design and the megaphone tube easily produces the best cow moose bugle ever created.

LOM2 Cow Moose Bugle \$32.75

FIREARMS SAFETY

Hunting and target shooting are among the safest of all sports.

From the time you pick up a firearm, you, the shooter, become a part of a system over which you have complete control. You are the only part of the system that can make the gun safe or unsafe.

- 1 Don't Rely on Your Gun's Safety. Treat Every Gun as if It Were Loaded and Ready to Fire
- 2 Never Cross a Fence, Climb a Tree or Jump a Ditch With a Loaded Gun
- 3 Never Load or Carry a Loaded Gun Until You are Ready To Use It
- 4 Watch Your Muzzle So the Other Fellow Doesn't Have To
- 5 Keep Guns and Ammunition Separately and in Locked Storage
- 6 Don't Shoot Unless Absolutely Sure of Your Target and What is Beyond It
- 7 Know the Range of Your Gun. Remember, Even a 22 Rimfire Can Travel Over One Mile
- 8 Always Wear Eye and Ear Protection When Shooting
- 9 Always be sure the barrel is clear of obstructions... and only carry ammunition specifically intended for the gun you are using.
- 10 Always Carry Handguns With the Hammer Down on an Empty Chamber

Game Calls

The CHAMPION DUCK CALL represents years of research and refinement. Easy for the novice to blow. Blend of time proven design with latest non-porous material that will never change in tone a fault found in all wooden calls. Each call is hand tuned. Adjustable. Deer Calls

BLEAT DEER CALL

This call will bring in both bucks and does year-round. Deer will come to the call out of curiosity. Does come in readily out of maternal instinct. A bleat will alert a buck to the presence of a doe. Will imitate to perfection the distress cries of young deer.

L030 \$9.75

REGULAR DEER CALL

Will imitate the bleating cries of the deer to perfection. Crafted from American hardwoods.

L031 \$9.75

SNORT DEER CALL

Very effective for luring the whitetail deer. A snort during the rut will bring a buck running for a fight. Excellent tool for stopping moving deer for a clean shot.

L032 \$9.75

MODEL 33 DEER GRUNT CALL

Has been on the market longer than any other grunt deer call ever produced. This call will produce to perfection the grunting sounds of deer with little effort. Deadly during the rut yet works well year-round.

L033 \$10.85

"HUNTER'S CHOICE" DEER GRUNT CALL

This triple tone grunt call authenticates the three different types of grunt that a deer gives. Reproduces contact grunts with a new design tonal resonator in place. Remove the resonator for loud aggressive grunts or inhale on tonal resonator for soft maternal type doe grunts and receptive grunts made by a doe in heat. Made of highest quality molding materials. Unconditionally guaranteed.

HC1100 \$14.15

BIG BUCK BATTLIN' BAG

Made of only the finest hardwood available at exact dimensions for true horn rattling sounds.

L034 \$15.25

Introducing "K'MEER® DEER"

NEW!! UNIQUE!! DIFFERENT!! EFFECTIVE!!!

Most effective deer call ever designed. Works on ALL species of deer, all YEAR ROUND.

KM100 Whitetail Deer Call \$12.75
KM125 Mule Deer Call 12.75

Elk Calls

ELK TALKER

Imitate all the sounds that the herd makes in order to locate, call in, or calm down elk. Works great on bulls, cows, and calves.

L018 \$8.85

DIAPHRAGM ELK CALLS

Two heavy layers of latex reeds. With this call you can master any call the elk makes.

L021 \$5.50

HEAVY TRIPLE REEL ELK CALL

One heavy and two light layers of latex gives this call everything the double reed diaphragm has with the ability to take super amounts of air pressure.

L022A \$7.25

LIGHT TRIPLE REED ELK CALL

These three light triple reeds give you easy blowing volume for reaching out to big bulls.

L022B \$7.25

ROYAL ELK GRUNT TUBE

The mouthpiece of the royal grunt tube seals the air for the perfect grunt while enhancing the tone of your Lohman mouth diaphragm elk call.

L023 \$9.25

OPEN REED MONSTER ELK CALL

Calls in monster elk (brought in world record Yellowstone elk with a bow, 393 points). Deep reedy sound imitates a mature bull bringing in other mature bulls for a fight.

L026 \$17.75

CALLING INSTRUCTION CASSETTES

Calling & Hunting instructions and operation of Lohman calls.

LOC61 Elk \$9.75
LOC60 Deer 9.75
LOC54 Predator 9.75
LOC53 Turkey 9.75

Predator Call

TRIPLE TONE VARMINT CALL

Excellent for all predators and situations. For loud guttural cries, moderate mid-range sounds & a close-in coaxing call. Crafted of American hardwoods.

L0211 \$10.95

Turkey Calls 49

DOUBLE REED DIAPHRAGM

The two light layers of latex give you a smooth sounding pitch that is very easy to control. Lohman's best selling turkey call.

L0820 \$5.50

SPLIT REED RASPY MAGNUM CALL

With two heavy latex reeds, one split, this call has the built-in rasp that is super for Fall calling.

L0836 \$5.50

SLATE TURKEY SCRATCH CALL

This call will produce any known sound a turkey makes except for the gobble. Works well even in wet weather.

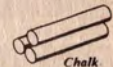

L0861 \$19.95

TURKEY MINI-HEN

This automatic push button caller will perfectly reproduce the sounds of the wild turkey hen. Its small size allows you to carry it in your pocket.

L0865 \$19.95

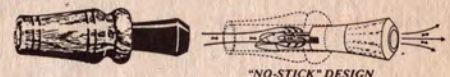

GOBBLE BOX

The short chamber gives you the smooth high pitch sounds for long range calling or locating while the longer tone chamber gives deeper sounds of more mature turkeys.

L0870 Gobble Box \$22.95
LOCH Box of Chalk 1.09

NEW Duck Calls

"NO-STICK" DESIGN

BILL HARPER PRO MODEL CALL "NO STICK" Exclusively by Lohman, this call eliminates sticking due to moisture build-up. Will produce beautiful ringing hail calls, low end quacks and the finest clucks of the hen mallard.

L0400 \$31.25

NEW Moose Call

COW MOOSE CALL

Lohman has now produced the most authentic, simplest to use reed moose call ever built.

LOM2 Mega Cow Moose Bugle \$32.75

FEATHER FLEXTM DECOYS

*DESIGNED BY HUNTERS, FEATHER FLEX DECOYS ARE VIRTUALLY UNMATCHED FOR REALISM & COLOUR.

*MADE OF EXTREMELY DURABLE CROSSLINKED POLYETHYLENE FOAM

*UNAFFECTED BY ULTRA VIOLET RAYS AND WILL NOT FADE FROM SUN EXPOSURE

*ULTRA-LIGHTWEIGHT SHELLS PROVIDE MORE LIFE-LIKE PROFILES & BEHAVIOR PATTERNS IN A WIDER VARIETY OF WEATHER CONDITIONS THAN PLASTIC DECOYS.

*VIRTUALLY INDESTRUCTIBLE, FEATHER FLEX DECOYS CAN BE CRUSHED FOR PACKING ALLOWING THE HUNTER TO CARRY MORE DECOYS & WITH A LOT LESS WEIGHT.

Remington.**ACCESSORIES****REM™ OIL**

Made with a special formula containing TEFLON®. Provides superior lubrication, cleaning, rust protection, and moisture displacement.

R24029 1/4 oz. Squeeze Bottle \$1.39
 R26618 1 oz. Squeeze Bottle 1.95
 R26610 4 oz. Aerosol Can 5.39
 R24027 10 oz. Aerosol Can 7.75
 R24031 24 oz. Spray Bottle 18.50

**REM DRILL LUBE™**

- Clean, nonstaining formula containing TEFLON™ lubrication.
- Excellent nonstick performance over a wide range of temperatures.
- Dries on contact.
- Available in 4-oz. spray cans.

R24053 4 oz. Aerosol Can \$6.69

**REMCLEAN™**

- Nonabrading bore cleaner improves gun accuracy.
- Made with a rare earth suspension in mineral oil.
- Removes carbon and other debris by mechanical action.
- Not acidic-will not corrode metal.
- Environmentally safe.
- Available in 1-oz. and 4-oz. squeeze bottles and in the Remington Field Pack.

R24015 1 oz. Squeeze Bottle \$4.25
 R24017 4 oz. Squeeze Bottle 10.55

**FIELD PACK**

- REMCLEAN™ and REM™ Oil.
- One package provides all that's needed to clean and lubricate Remington firearms.
- Each pack contains a 1-oz. squeeze bottle of REMCLEAN™ and a 1-oz. squeeze bottle of REM™ Oil.

R24019 1 oz. each \$6.29

WE VERY STRONGLY RECOMMEND THAT SHOOTERS...

Buy some gun oil and cleaning kits to get the maximum of satisfaction from their firearm, especially semi-automatic rifles.

On .22 semi-automatic rifles, action and magazine clip should be cleaned frequently and periodically the whole mechanism should be cleaned by a gunsmith in a tank to remove dirt build-ups.

Gunsmiths strongly recommend that with Semi-Automatic rifles that you spray a shot of oil into the clip as well as the receiver after every 20 shots to ensure smooth operation of the rifle between cleanings.

**REM™ GUARD**

This unique spray restores water and stain repellency to outdoor clothing without compromising garment performance. Will not affect breathability of high-performance fabrics, such as GORE-TEX®. Formula contains ZEPEL®.

R24023 16 oz. Aerosol Can \$11.50

**COUNTER SCENT™**

COUNTER SCENT™ removes food odors, fuel odors, and human scent from clothes and skin. Also removes fish and bait odors and keeps lures clean; ideal for fishermen as well as hunters. Contains aloe and moisturizers to help protect skin from the elements. Biodegradable, phosphate-free formula prevents freshwater contamination.

R24025 8 oz. Squeeze Bottle \$7.50

**REMACTION™ SCRUBBER**

- Cleans firearm actions and fire-control mechanisms without disassembly.
- Leaves no residue and produces a clean, dry surface.
- Removes harmful debris and used lubricants to provide clean, safe operation of moving parts.
- Ozone safe, does not contain fluorocarbon propellants.
- Sizes: 9-oz. and 16-oz. nonflammable aerosol cans.

R24007 9 oz. Aerosol Can \$6.40
 R24009 12 oz. Aerosol Can 7.75

**MULTI-PURPOSE WD-40**

- Prevents Rust—Corrosion**
WD-40 stops rust and corrosion. It deposits its inhibitors within the metal. Light rust and corrosion can be wiped off within minutes after application.
- Lubricates**
WD-40 will not oxidize and cause delicate mechanisms to gum as will normal lubricants. It keeps lubricating quality at all temperatures, even in freezing weather.
- Penetrates**
WD-40 is used to free binding and corrosion frozen parts. It is ideal for use on close tolerance fittings. There is no more effective penetrant on the market.
- Displaces Moisture**
WD-40 displaces moisture and has a "drying out" effect. It is particularly useful for application on electrical apparatus, ignition systems, generators and electric motors.

41006 6oz Aerosol \$3.15
 41012 12oz Aerosol 4.50
 43001 4 litres 19.95
 42000 Sprayer 4.95

TARGET TRAPS & TARGETS

MINI-GRAND™

OUTERS Mini-Grand packs a whole lot of features into an absolute minimum size. And delivers them at a downright minimum price, too.

Its powerful throwing arm is fully adjustable — an unheard of feature in traps this size. Both angle and elevation can be varied to provide a wide range of flight patterns. Spring tension also adjusts quickly and easily.

The Mini-Grand will throw clay targets for as long as you can shoot them with remarkable uniformity, thanks to its heavy-duty construction and press-in ground grippers. No extra anchors or attachments are needed.

A lanyard pull makes for simple solo operation.

OU40200 \$64.50

GROUND HUGGER™

OUTERS Ground Hugger trap offers the same versatility as the Mini-Grand in a somewhat beefier version. Sturdy press-in ground grippers hold this trap rock steady for lots of uniform throws and few if any broken birds.

Angle, elevation and spring tension are all easily adjusted. The Ground Hugger will throw excellent singles and is set up for simple solo use with a lanyard pull that can be handheld or attached to a shooter's wrist or belt.

OU40202 \$112.50

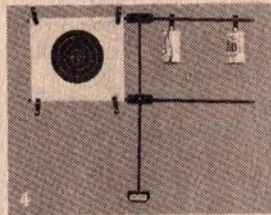

VANDALIA GRAND™

OUTERS top-of-the-line trap, the Vandalia Grand, is a high-performance bargain compared with regulation traps. And it's the only portable trap with lever-action cocking. So you expend less energy setting its powerful spring tension and more shooting the birds it hurls.

Over 35 flight patterns can be generated through adjustments to the Vandalia Grand's angle, elevation and tension. From high looping patterns to bullet paths. And its push-in ground grippers and heavy-duty construction mean throws will be uniform time after time.

Comes complete with detachable tripod and locking braces.

OU40205 \$233.95

FIELD TARGET HOLDER

An easy-to-transport, simple-to-set-up alternative to looking for not-always-so-handy tree or fence post. Solid steel construction, not hollow tubing. Presses or may be hammered into ground. Anchor plate prevents turning in the wind. Includes eight clips for attaching paper targets or hanging cans.

OU40800 \$35.50

OFFICIAL NRA TARGETS

OUTERS targets are made from heavyweight, non-glare stock for a wide range of shooting situations. But even more important, OUTERS targets are approved by the NRA (License #17, to be specific), which means they conform to all NRA specifications for use in regulation matches.

12 Targets per pack

OU40754	50' Junior Bullseye	\$1.50
OU40758	75' Bullseye	1.50
OU40759	50 yard bullseye	1.50
OU40762	100 yard bullseye	2.30
OU40745	15' Junior Target	2.30
OU40746	Scope Tagboard	2.99

VARMINTER™ RIFLE REST

Replaces your favorite sandbag. This traveling benchrest adds stable support, yet pivots up and down and swings freely from side to side.

Durable, though light, square tubular steel construction. Complete with adjustable rubber-coated gun cradles and elevation adjustment.

All three legs have rubber feet for stable, yet soft, support (which means you can shoot right off the hood of your truck without scratching the finish).

Weight: 6 1/4 lbs.

OU40802 \$79.25

VARMINTER™ GUN VISE ACCESSORY

Converts Varminter Rifle Rest into a hard-working tool for cleaning, repairing or adjusting most rifles and shotguns, or mounting scopes.

Fits into either end of rest to obtain best working position. Even allows positioning of gun upside down or at an angle.

Soft, sheepskin-covered cradle arms prevent marring of stock, yet hold gun securely. Independent clamping action of arms allows lever-action guns to open for cleaning.

Solid steel construction.

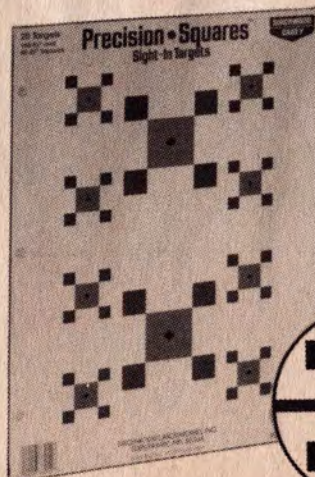

OU40813 \$27.95

BIRCHWOOD CASEY

Convenient, self-adhesive, fluorescent red spots create instant bullseyes for all types of target practices. The high contrast, radiant red colour lets you see a sharper sight picture and bullet holes more clearly.

TS1	105 1" Spots	\$4.99

TURRET PRESS

A strong and powerful tool with features not found on any other tool regardless of the price. Compound linkage full length sizes the largest magnum cases with ease. Completely reversible for left hand use. Built-in primer

LEE90496	Press Only	\$87.50
LEE90576	Press with auto index	\$104.95
LEE90497	Extra Turret	\$14.25

EXTRA TURRET

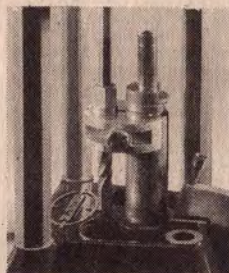

Once the dies have been adjusted they never need readjusting. Simply snap the turret and dies into the press and you are ready to reload another caliber. These are machined from accurate die castings for interchangeability.

AUTO-INDEX

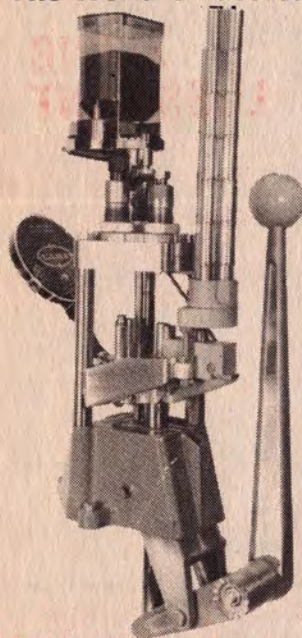

Automatically rotates the turret

Near the bottom of each stroke, the turret automatically rotates to the next die station. This is a rugged, simple and dependable device. Safety over-ride prevents overstressing should the turret be prevented from turning. Greatly speeds reloading as no time is required to index the turret.

NEW! LEE PROGRESSIVE 1000

The World's Fastest Handloading Press

Speed, simple operation, ease of caliber changing and low price make the Lee Progressive 1000 totally unique. This Press is so trouble free you can actually process one case at a time without spilling powder or causing a jam — a great feature for setup. Loaded rounds are ejected from the Shell Plate into a chute to your container. You simply pull the lever and insert the bullet. All other operations are automatic.

The Progressive 1000 Press is shipped complete with Carrier and Shell Plate, four tube Case Feeder, Deluxe Auto-Disk Powder Measure (90577) and a set of Lee Carbide Dies.

Lee Progressive 1000 for . . .

**HIGH TECH PRODUCES PRESS
GUARANTEED TO THE YEAR 2001**

THE LARGER THAN AVERAGE OPENING is offset 30° for greater hand clearance. A precision fitted ground ram, tough polyester finish and hard maple knob all contribute to the overall feeling that no better "O" frame press could be had at any price.

COMPOUND LEVERAGE makes sizing the largest case so easy it can be done with one finger. Mechanical advantage is quickly user adjustable by shortening the lever, the lever can be adjusted to start and end for most convenience. The frame is cast from a tough ASTM380 alloy with 46,000 PSI tensile strength. Poured for pound several time stronger than cast iron.

LEE "RELOADER" PRESS

includes built-in primer catcher

The RELOADER is a full size press that accepts all standard dies. The strong 46,000 PSI ASTM 380 alloy makes this press strong enough to swage bullets. It has the unlimited hand clearance that only a "C" frame can give. Compound leverage permits full length sizing even large 375 H&H cases with a minimum of effort. Exclusive balanced lever won't drop to pinch fingers when released.

LEE90045 \$40.95
or \$25.95 SPECIAL if
you purchase at the
same time a PRIMING
TOOL AND A SET OF DIES.

CHAMFER TOOL

Unique design cuts fast without chatter.
One turn does the job. Will last for years.

LOAD SHOTGUN SHELLS TO LOOK AND SHOOT LIKE NEW

LEE LOAD-ALL™

A lifetime reloader that loads faster than machines costing over \$200.00. Price includes 24 shot and powder bushings, a new primer catcher and new case head positioners at every station. The LOAD-ALL II can now be fitted with an optional primer feed for even faster reloading. Conversion to another gauge is both easy and economical.

12g and 20g load
both 2-3/4" & 3"
shells.

AUTO PRIME II

PRIME JUST AS
FAST AS YOU CAN
HANDLE THE CASES!

Uses Universal
Shell Holders.
See Page 5.

THE LEE AUTO PRIME II uses standard shell holders and will fit any brand of loading press with a vertical ram. Primes on upstroke for most sensitive feel. Includes primer feeders and punches for both large and small primers. Primer tray detaches for filling. Primers are flipped right side up by shaking the tray. This not only saves the time normally required to fill primer tubes, but eliminates the danger of stacked primers. Other safety features include an open feed trough to vent an accidental discharge and a drain to sift the explosive primer dust through the die to prevent it from accumulating.

LEE90107 \$20.50

AUTO-PRIME

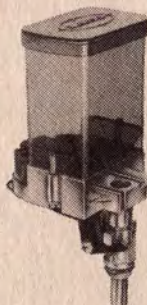

Fastest, safest and most accurate priming tool made. Never touch the primers from the box to the shell. Automatically feeds and installs primers just as fast as you can place shells in the holder. Each primer is perfectly seated with the feel appreciated by precision reloaders. Built-in primer flipper turns them right side up. Simply dump the primers into the tray, shake lightly, replace cover and you're ready to prime 100 shells. Low cost, easy to change shell holders.

LEE90230 \$21.75
WITH TRAYS FOR BOTH LARGE
AND SMALL PRIMERS

LEE AUTO-DISK POWDER MEASURE

Automatically dispenses a
powder charge that is more
uniform than any other
powder measure

The case itself actuates the measure while the neck is being flared. The powder measure is actuated during the press's greatest mechanical advantage; this insures a smooth, even action of the measure. A built-in powder baffle and charge disks, precisely molded from glass reinforced engineering grade plastic, contribute to the previously unattainable uniformity of charges. Each Auto-Disk measure comes complete with four charge disks containing six cavities each; a total of 24 cavities! Charges from 2 to 24 grains.

LEE AUTO-DISK POWDER MEASURE
complete with 4 charge disks

Patented

ORDER EXPANDING DIE

DELUXE AUTO-DISK POWDER MEASURE

The ideal tool for those who demand the very best. The Deluxe Auto-Disk has carefully machined metering surfaces for even greater accuracy and smooth operation. The hopper on the Deluxe Auto-Disk Measure is built of tough polycarbonate to provide superior wear resistance. A triple chrome plated main casting gives the unit its quality appearance.

MUZZLE LOADING ACCESSORIES

PATCH LUBRICANT

BG450 4oz. \$5.25
For all patched balls.

PISTOL PATCH

BG260 4oz. \$5.25
Revolver sealant.

MINI-MAXI BALL GREASE

BG350 4oz. \$5.25
Use with Mini or Maxi balls.

LEAD CASTERS FLUX

Lead Casters Flux is a superior fluxing for the bullet caster, resulting in a truer shape in your finished bullet or round balls. It has no objectionable odor, is non-toxic and relatively smoke free. One 4-oz. container is sufficient for approximately 200 pounds of lead.

BG921 4oz. \$5.25
Caster flux.

BLUE & GRAY PRODUCTS, INC.

BLUE & GRAY TARGET PATCH LUBRICANT
Blue and Gray target patch lube is designed for shooting on the line all day. Since it is non-corrosive, contains no silicone, phosphates, or oils, it creates no build up. Its self cleaning properties will flush away residues with each shot. It is a neutral chemical compound.

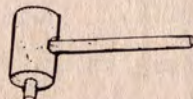

BG560 8 oz. \$4.25
Target patch lube.

NEW! PLASTIC TAPERED POWDER CAN NOZZLE W/Snap-on Resealing Cap

For black powder and smokeless powder, this nozzle fits Gearhart Owen black powder cans, DuPont smokeless powder cans, and MEC shotgun reloader bottles. It can be used to directly fill your black powder measure & powder horn, Blue & Gray speed shells, or fill your smokeless powder measure hopper. If a larger orifice is desired for greater flow, simply nip off the tip to the desired amount.

BG51 2 pc. Pack. \$2.29

No. 10 SHORT SHAFT BALL STARTER
is designed to adapt to any ball size up to .58 caliber. The oak handle is a convenient size and shape for the palm of your hand.

BG10 \$5.50

No. 20 PISTOL SHAFT is a loading and cleaning rod for pistols. Placing a cleaning patch through the slot and folding it over the end of the shaft insures that it cannot be lost, and the deepest recesses of the breech can be reached. The 8x32 tap will take all attachments, of that thread size (swabs, pulling jag, brush, etc.).

BG20 \$7.50
Pistol and revolver loader and cleaner.

CONCENTRATE BORE CLEANER

Blue and Gray Concentrate Bore Cleaner can be used effectively when diluted up to 10 times. It is a neutral chemical cleaner that quickly lifts & floats away with no more harmful effect than pure water. It is also safe for woodwork, tile, all metal, glass, and greasy equipment.

BG580 225g \$4.25

MUZZLE LOADER BORE CLEANER

Makes cleaning as simple as any rifle using only patches and cleaning rod. It dissolves black powder residues and fouling.

BG900 2oz. \$2.75

METAL CLEANER

Designed to remove oily films, light grease, dirt, etc., to prepare your metal for application of bluing or browning. All parts to be blued or browned must be thoroughly clean to achieve satisfactory results.

BG510 2oz. \$3.25

Book

DB8336 Complete Black Powder Handbook \$14.50

STOCK FINISH

Blue & Gray Stock Finish provides a hard, durable high gloss finish that can be rubbed down if desired to a soft appearance. Easy to apply. For the finest of finishes on all wood surfaces.

BG520 2oz. \$3.95

STAIN

Blue & Gray alcohol base stain minimizes feathering and is particularly designed for all light colored woods to produce a rich shading that enhances the grain. Ready to use. It requires no dilution or additional preparation. Shading can be varied by number of applications.

BG550 2oz. \$3.95
9010 Stain.

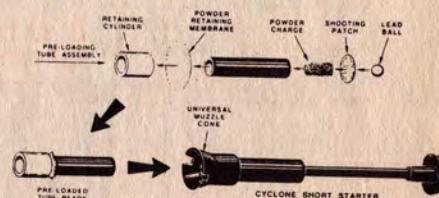

METAL POLISH

Shake well before using and apply with a soft cloth which should be kept moist with polish. Rub briskly until tarnish is removed, then polish with a dry cloth. Cleans and polishes aluminum, chrome, brass, stainless steel, copper, glass and all metals. Do not use on lacquered finish.

SHOTGUN SPEED SHELLS

The new Blue & Gray "Standard Load" and "Magnum Load" shotgun speed shells are a two-compartment, double capped reusable shell. They are packed 4 ea. in a poly bag; complete instructions for use are printed on the bag. The "Standard Load" shell holds 83 grains of black powder and 1 1/2 oz. of shot. The "Magnum Load" shell holds 100 grains of black powder and 1 1/4 oz. of shot.

BG965 12g STAND LOADS \$6.50
 BG975 12g MAG LOADS 6.50

SHOTGUN WADS

BLUE & GRAY PRODUCTS is introducing a new line of MUZZLE LOADING SHOTGUN WADS. They are now available in 8, 9, 10, 11, 12, 13 and 20 ga. Other gauges may be added later if demand justifies it. Since foreign and domestic gauges vary dimensionally, the shooter may find that an 11 or 13 fits his 12 ga. better than the 12.

The unique feature of the cushion wad is that it is pre-conditioned. It has been treated to be ready for use. The wad is solid and does not separate.

All wads are packed in clear plastic for visibility. All are designed for pegboard display except for the 500 pk. of cushion wads which is too heavy.

BG90 12g \$2.95

NO. 77 BLACK POWDER SOLVENT

Clean it right! Prevent rust and loss of accuracy from black powder fouling by cleaning your muzzleloader with No. 77, the traditional, water-soluble cleaner. Effectively dissolves powder residue and loosens any metal traces for easy removal. Use No. 77 for cleaning all metal (inside and out) to remove any powder fouling. When you're finished shooting for the day and have cleaned your muzzleloader, apply Sheath® to all metal parts to protect from rust. Flip-top closure for no-spill cleaning.

BC77 8oz \$4.75

HOW TO LOAD "SPEED SHELL"

1. Lubricate Patch
2. Push patch and ball into open end of shell
3. Trim off patch
4. Remove and cap
5. Pour in measured powder charge
6. Replace and cap

LOADING YOUR GUN WITH "SPEED SHELL"

1. Remove end cap
2. Pour in powder charge
3. Ram lead and patch thru shell into bore of gun
4. Replace end cap and keep shell for reloading

IMPROVED ALL DAY WONDER PATCHES

"Shoot all day without ever having to wipe the bore."
GUN WEEK — December 31, 1982.

Wonder patches are prelubricated with wonder lube which allows you to shoot many consecutive shots without cleaning while maintaining top accuracy. These patches will lube both inside and outside metal and wood parts. Therefore, you have a complete shooting and gun care product in wonder patch. No other lube, solvent, cleaner or chemical is needed or should be used. Complete instructions accompany all day wonder patches and insure your shooting pleasure.

Round pre-cut (100 per bag)

			ALL \$10.25 EACH

NEW IMPROVED ALL DAY WONDER LUBE MORE FUN — LESS CLEANING — BETTER ACCURACY

New improved All Day Wonder Lube is a traditional style blackpowder patch and bullet lube, which will bring more fun into your blackpowder shooting.

Wonder Lube allows you to spend more time shooting than cleaning while providing easier loading and better accuracy.

There are no petroleum or chemical additives which we feel are a major cause for the fouling that has become associated with shooting blackpowder.

Wonder Lube is a complete gun care product which will protect your entire firearm from rust and corrosion. This is the same lube used in OX-YOKE's new improved All Day Wonder Patches.

WOULDN'T YOU RATHER BE SHOOTING THAN CLEANING!!

OX5555 4 oz . . . \$8.50

WONDER WADS 100 per bag

OX3600	.36 cal
OX4400	.44-.45

"The most effective method of chamber sealing and lubricating."
GUNS & AMMO — May 1979.

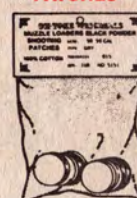

Wonder Wads are dry lubricated and made from a special high-density, 100% wool, woven fabric that has been engineered and designed for this use. When used in cap-n-ball revolvers, Wonder Wads are used over the powder and under the round lead ball. No messy grease is needed with Wonder Wads. They safely seal each chamber and prevent any chance of chain-fires. In testing, we have fired 100 shots with top accuracy and the revolvers we used did not foul up. All this without the need to clean.

Single shot pistol and rifle shooters are using Wonder Wads over the powder and under the patched ball to improve accuracy.

Siug gun shooters are following the same method with very good results. Many World Records and match winners have used Wonder Wads as part of their loads with excellent results.

DIAMOND
CHAIN SAW
SHARPENER

This revolutionary new diamond sharpener with a guide will provide the user with a fail safe sharpening system that will sharpen faster and more accurately than other tools available, is the most economic sharpening system and can be used effectively with any common household electric hand drill that has a standard chuck.

CSG-5/32" Chain Saw Sharpener \$5.99
CSG-7/32" Chain Saw Sharpener 5.99

MODEL G

NOTE THERE ARE TWO TYPES OF BUTCHER STEELS:

- The EZE-LAP butcher steel has thousands of little diamonds imbedded in the steel and these diamonds will actually grind off steel and re-sharpen a knife blade.
- The conventional butcher steel without diamonds will not grind off steel and thus will not re-sharpen a knife blade. It will only straighten out an existing edge on the blade. Once the existing edge is worn off, the conventional steel will not grind a new edge on the blade regardless how long you work on it. Only diamond studded surfaces, sharpening stones or ceramic sharpeners will grind off steel and thus maintain a bevel and sharpen a blade. The conventional butcher steels are outdated equipment.

G-LAP 8" Butcher Steel \$33.95

SPECIALLY FORMULATED

GOOP
THE SUPERIOR ADHESIVE AND SEALANT
STRONGER THAN GLUE!

- PROTECTS • PROLONGS
- STICKS • SEALS • SECURES

GLUES EVERYTHING: SEALS EVERYTHING:

GOOP 105ml Glue \$6.50

SH-SERIES HI-CARBON

SH stands for ^{SHAVING} ~~SHARP~~

All knives are honed to a 20° angle. They are so sharp that you can slice paper.

Because we want to give our customers maximum satisfaction we supply every knife with sharpening instructions. 95 out of 100 people do not know how to sharpen a knife properly.

We also supply a folder "BE AN EXPERT" free of charge. It gives full information on knife steel and knife care.

High Carbon means

All SH-Series knives are stamped on the blade HI-CARBON which stands for superior quality cutlery steel with a high carbon content that holds an edge extra long. A good steel needs a high carbon content in order to take a high temper. All knives are hardened to a minimum of Rockwell C54 which is accepted as a high quality mark anywhere in the world. If anyone tells you a knife needs no re-sharpening, either he does not know better or he is telling you a fib.

Pro-Guide II Caper

GK4268 For capping large game or skinning small game. Overall length 7-3/4". blade length 2-3/4". \$62.25

Lightweight Folding Lockbacks

Gerber has pioneered the use of tough, lightweight, space age materials. Now our LST, Ultralight LST give the consumer an extremely tough, lightweight knife without sacrificing strength, stylish appearance or quality. All lightweights feature and encapsulated one-piece handle molded from tough, 43% glass filled DuPont Zytel. The precision blanked, high carbon surgical stainless steel blades pivot on permanently lubricated integral bushings for smoother action and longer wear. In factory tests, Gerber lightweights have been opened and closed over 50,000 times with no apparent wear.

GK6009 LST Black, Single 2-5/8" drop point blade. Length (open) 6-1/8". Closed 3½" \$37.25

L.S.T.® Camouflage Folding Knife

NKSH2 two Stage Sharpener \$3.50

Precision sharpening using 100% natural Arkansas Stones. Includes 2 stones and a synthetic bonded abrasive stone as well as Honing oil and genuine leather storage pouch.

EZ80 3 Stone system \$22.99

Knife Sharpening INSTRUCTIONS

PUT YOUR THUMB on knife back as a guide, see 4a and 4b, to maintain same angle while sharpening. Side of thumb touches sharpening rod. Unless you maintain same angle you will get a semi-sharp knife edge regardless how long you sharpen it. This is the most important part of the sharpening process.

FOR BEST RESULTS use the simplest, safest and most accurate method as follows: Rest tip of sharpener on counter or other firm support. Apply a number of firm slicing strokes. Do as if slicing a thin layer off the sharpener. DO NOT point tip of sharpener in the air. This is too inaccurate for a fine edge.

REPEAT SAME number of strokes on other side of blade by using the index finger as guide to maintain same angle.

15° gives superline and supersharp edges for light cutting (filleting fish). 30° makes an edge stronger and longer lasting for heavy work (cutting wood). 20° to 22° is a happy medium recommended for general use. Your thumb as a guide will give you about 20°

New Generation of Flashlights

Halogen

300% Brighter than ordinary flashlights.

MAKE THIS TEST: Aim this Halogen a few hundred feet away. You will still get sharp, crisp outlines where ordinary flashlight beams just fade away to nothing.

- * Up to 15 hours on alkaline batteries
- * Rugged case, reliable switch
- * Waterproof to 30'.

H300 2D Halogen FLASHLIGHT \$9.95
H500 3D Halogen Searchlight \$12.50

BELL BODY GRIPPER TRAPS

TENS OF THOUSANDS sold in Canada. Excellent quality. Body gripper traps kill instantly. The most effective traps available to do a better job. Increasingly popular and leading in trap sales. Highly praised and recommended by expert trappers all over Canada and by provincial governments. Order with confidence.

SUPERIOR TRAPS: Prevent wring-offs and fur loss. More variety in sets than legholds in runways, cubbies, underwater dens, works under ice and in snow. Very compact, folds flat.

Kills instantly. 80% Of all traps sold are Body Gripper Traps.

QUALITY OF BELL TRAPS

BELL TRAPS HAVE BEEN SOLD IN CANADA FOR MANY YEARS. THE QUALITY IS EXCELLENT. THIS IS BORN OUT BY THE FACT THAT RETURNS OR COMPLAINTS ARE VIRTUALLY NIL.

DEALERS WHO HAVE THEIR OWN TRAPS LINES USE BELL TRAPS.

LIVE CAGE TRAPS

FOR PREDATOR & PEST CONTROL

Live cage traps have become known as the perfect solution to the pest problems. Fully assembled. Spring loaded. Painted black. Being used everywhere there is a problem.

SAFETY FOR MUZZLE LOADING

1. Muzzeloading firearms are not toys. Treat them with the same respect due any firearm.
2. Use only blackpowder or pyrode, of the proper granulations, in your muzzleloading firearms.
3. Never fire a muzzleloader unless the ball or shot is firmly seated against the powder charge. An air space between powder and projectile will cause the barrel to be ringed or bulged, thus ruined for accurate shooting; and in some cases may cause the barrel to rupture, with attendant injury to the shooter and bystanders.
4. Do not exceed manufacturers' recommended maximum loads or attempt to load multiple projectile loads (i.e. double ball).
5. While loading, do not expose your body to the muzzle. Grasp your ramrod only a short distance above the muzzle, pushing it home in short strokes, thus lessening the chance of a broken ramrod, and possibly resulting injury from the broken end.
6. Do not load directly from the flask or horn. Use a separate measure. A lingering spark in the barrel can ignite the charge, causing the horn or flask to blow up in your hand.
7. Never smoke while loading, shooting or handling black powder.
8. The half cock notch is your safety on a muzzle loader. Always be sure it is functioning properly. If the trigger or lock does not seem to be functioning correctly, take your firearm to a competent gunsmith.
9. Always make sure your downrange area is a safe impact area for your projectiles. Maximum range of a firearm is obtained by firing at a 35° angle above the horizon. Round balls may carry as far as 1000 metres and elongated projectiles well beyond this distance.
10. The nature of a muzzleloading firearm requires that you, the shooter exercise caution and skill in the care, loading and use of such a firearm. Make certain that you are fully informed as to all the proper steps in such care and use.

MAIL TO OUR ADDRESS ON FRONT COVER

To Our Customers

Welcome to our new 1990/91 catalogue presenting the finest in hunting equipment lines in the world.

Phone Orders

Phone orders are welcome (No collect calls) with credit card number and expiry date.

Firearms FAC

For firearms a F.A.C. (firearms acquisition certificate) is required. Please send original (not a photo copy). We will return your F.A.C. with your shipment.

Prices

Most prices will stay in effect for the term of the catalogue. Some prices may go down and we will charge only the new lower price. Some suppliers may have to increase prices and those new prices have to be charged. Should any errors in pricing happen, we reserve the right to charge corrected prices. The design of some of the products in this catalogue may be changed.

Guarantee

Most products are guaranteed for one full year or even longer as stated by the supplier.

Gift Certificates

Gift certificates without expiry date are available. Let the recipient select exactly what he or she wants. For businesses this is an ideal way of rewarding top achievers.

Cheques

If you send a cheque as a deposit or full payment, allow about 2 weeks for cheque to clear before shipping.

FOB Our Store

If you send a money order or a cheque for the full amount of the order, please estimate the postage (\$5.00 for first \$100 and \$3.00 for each additional \$100). In most cases this will cover the postage or freight. If the shipment is very heavy and requires extra freight, we will call you or refund the freight paid and send the parcel freight collect.

Breakage

In case of breakage or pilferage, please have the last carrier inspect shipment. Then send us his inspection report with your claim. We will then file a claim and send you a replacement where applicable.

Returns

If you want to return merchandise, please write us within 30 days or call us. Returned products must be unused and in the original packaging. A receipt will be needed as proof that the product was purchased from us. Defective products should be sent to the manufacturer's repair depot. We can supply you with the proper name and address where needed.

GIFT CERTIFICATE

Let the recipient of your gift select his own choice of equipment to make it exactly what he or she wanted.

For businesses this is an ideal way to reward your top achievers.

Remington®

Model 11-87™ Premier™

The Shotgun For All Seasons

Model 11-87™ Premier™

If you can only own one shotgun, it has to be the versatile Remington Model 11-87™ Premier™ autoloader.

With a stainless steel magazine tube, larger extractor, heat treated piston and piston seal, the Model 11-87 Premier effortlessly handles all 12 gauge shot shells—from 2¾" to 3" magnums. Shell after shell, under the toughest conditions.

The Model 11-87 Premier comes with your choice of a 26", 28", or 30" field barrel, or a 20" deer

barrel with rifle sights. It is factory equipped with patented Rem™ Chokes, the high-strength, stainless steel screw-in tubes that can be quickly changed in the field. Skeet and Trap models are also available.

Whether you hunt turkey, waterfowl, upland birds or deer, the Remington Model 11-87 Premier autoloader is the one shotgun that's *always* in season. See it at your nearby Remington dealer today.

RemChoke, Model 11-87, and Premier are trademarks of Remington Arms Company, Inc.
